

Street Reconstruction Update

City of Lakeville Public Works

Construction Updates

Phase 1

This week the contractor has been working on cutting the marked curbing for removals. Utility crews will start early next week working on the water main improvements. Re-bolting fire hydrants and water main gate valves will be some of the first activities.

Phase 2

This week City staff has been marking curb and gutter areas for removals. Next week the contractor will work on cutting the marked curbing for future removals.

Door Hangers

The City will communicate short-term project updates such as driveway impacts and temporary mailbox needs via door hangers in residential areas. Check your front door each evening for project updates. If you have a storm door, leave it unlocked so project representatives can place the door hanger on your interior door - this will ensure you still get the door hanger during periods of windy weather.

Contact Shane Murphy, the onsite City Project Representative, at 952-737-7409 or Dan Bailey at 507-316-8771 for more information.
