

Hamburg Avenue Update

City of Lakeville Public Works 

Construction Updates

This Week

This week water main installation and water services were completed within Phase 1. Work continues with grading of the stormwater management area, roadway and relocating private utilities. Hamburg Avenue remains open for residents along the roadway but is closed to through traffic between 205th Street and 202nd Street.

Next Week

Next week as weather allows crews will begin construction of storm sewer and continue grading the roadway. During the day driveway access will be limited to residents in Phase 1.

Door Hangers

The City will communicate short-term project updates such as driveway impacts, construction schedule, garbage hauling and temporary mailbox needs via door hangers. Check your front door each evening for project updates. If you have a storm door, leave it unlocked so project representatives can place the door hanger on your interior door - this will ensure you still get the door hanger during periods of windy weather.
