

Hamburg Avenue Update

City of Lakeville Public Works 

Construction Updates

This Week

Installation of storm sewer was completed and curb and gutter was poured in Phase 1. Following placement of the curb and gutter, access to the driveways will not be permitted to allow for hardening of the concrete. Hamburg Avenue remains open for residents along the roadway but is closed to through traffic between 205th Street and 202nd Street.

Next Week

Next week crews will complete the construction of the residential driveways. The first layer of asphalt is scheduled to be paved on Friday, June 21. Residents will be notified when they can access their driveways during this week.

Door Hangers

The City will communicate short-term project updates such as driveway impacts, construction schedule, garbage hauling and temporary mailbox needs via door hangers. Check your front door each evening for project updates. If you have a storm door, leave it unlocked so project representatives can place the door hanger on your interior door - this will ensure you still get the door hanger during periods of windy weather.
