

Street Reconstruction Update

City of Lakeville Public Works

Construction Updates

Phase 1

1. Centerpoint Energy is scheduled for the gas line install on Klamath the week of the July 15.
2. Wear paving is scheduled to begin on Monday, July 29.

Phase 2

1. Gate valve and manhole raising is scheduled for the week of July 22.
2. Wear paving is scheduled to begin on Tuesday, July 30.

Phase 3

1. Wear paving is currently scheduled for Wednesday, July 31.

Phase 4

1. Crews will be in July 15 raising manholes and watermain gate valves in advance of the Public Works inspections.

Phase 5

1. Approval for the water quality control structure was received today. Mark F. has the structures on order and will update with an installation date.
2. The two deep sanitary sewer repairs are scheduled for July 16.

Phase 6

1. The reclaimer is onsite today and tomorrow working through the phase.
2. Tolerancing and shaping the road section are scheduled for the rest of the week with base paving by Wednesday, July 17.

Phase 7

1. Utility crews are working on watermain improvements and storm improvements.
2. Reclaiming is scheduled for Saturday, July 27.

Phase 8

1. Traffic control and erosion control will be installed on Monday, July 22.
2. Curb and gutter removals and replacements are scheduled to start Tuesday, July 23.

Door Hangers

The City will communicate short-term project updates such as driveway impacts and temporary

mailbox needs via door hangers in residential areas. Check your front door each evening for project updates. If you have a storm door, leave it unlocked so project representatives can place the door hanger on your interior door - this will ensure you still get the door hanger during periods of windy weather.

For more information on this project, including a project location map, go to lakevillemn.gov.
