Phase 10

1. Utility crews will be working on the re-bolting of the water main starting Thursday, August 15.

Door Hangers

The City will communicate short-term project updates such as driveway impacts and temporary mailbox needs via door hangers in residential areas. Check your front door each evening for project updates. If you have a storm door, leave it unlocked so project representatives can place the door hanger on your interior door - this will ensure you still get the door hanger during periods of windy weather.

For more information on this project, including a project location map, go to lakevillemn.gov.
