

Hamburg Avenue Update

City of Lakeville Public Works 

Construction Updates

This Week

Construction crews finished storm sewer installation within Phase 2. Crews have begun curb installation. Please drive slowly and use caution when driving as crews will be working near the roadway.

Next Week

Crews will continue working on curb installation. Weather permitting, the first layer of asphalt will be paved on Hamburg Avenue and the trail between Lakeville Boulevard and 205th Street.

County Road 50 will remain closed to all traffic east of the Highview Avenue intersection to Cedar Avenue for construction of improvements. This will also include the closure of Hamburg Avenue

from County Road 50 south to the new roadway constructed with Phase 1. Access to the driveways within the closure area will be coordinated directly with these property owners. The County Road 50 improvements are tentatively scheduled to be completed by November 1.

Door Hangers

The City will communicate short-term project updates such as driveway impacts, construction schedule, garbage hauling and temporary mailbox needs via door hangers. Check your front door each evening for project updates. If you have a storm door, leave it unlocked so project representatives can place the door hanger on your interior door - this will ensure you still get the door hanger during periods of windy weather.
